

PRODUCT INFORMATION

VALVOLINE™ GRASA LITIO CHASSIS ROJA 2™

Valvoline Grasa Litio Chassis Roja 2 is a lithium grease with a fibrous, sticky consistency manufactured with refined mineral oils and additives which allow it to serve as resistant grease to oxidation, corrosion, rust and moisture for the lubricated parts of automotive chassis.

VALVOLINE GRASA LITIO CHASSIS ROJA 2 ADVANTAGES:

- Good lubrication properties.
- Adequate adhesiveness for effective chassis protection.
- Resistance to water washout.
- Protection against rust and corrosion.
- Resistance to oxidation.

APPLICATIONS:

Litio Chassis Roja 2 is recommended for the general lubrication of all parts of the automotive chassis and various mechanisms in construction, trucks, agricultural and industrial equipment. It can be applied in swings, swivels, steering terminals, fifth wheel tractors, etc.

Litio Chassis Roja 2 is not recommended in the use of automotive bearings.

Typical Properties:	ASTM Method	NLGI #2
Product Code:		1403103
Base Thickener	D128	Lithium
Color	Visual	Red
Texture	Visual	Smooth
Worked Penetration, 25°C	D217	265 – 295
Mechanical stability, % loss	D217	15 max
Dropping Point ° C	D2265	165 min
Water Washout @ 80°C, % loss	D1264	6 max
Rust Prevention	D1743	Pass
Oxidation Stability 100 hrs. psi	D942	20 max

Variations in typical data may manifest themselves in the normal manufacturing process without affecting the performance of the product. This information is for informational purposes only and does not constitute a specification.

Part Numbers	NLGI #2
400lb Drum	885479
120 lb Keg (L)	885491
35 lb Pail	885489

Effective Date:
9/29/21
